The most modern surgery room in Zurich

Prevention-Center

*The center of excellence
in Switzerland*

Christian Köhler, MD, MBA

IN 2007 the prevention-center was founded by Dr. Christian Köhler, MD and MBA as a high-standard medical center for aesthetic and cosmetic treatments. Today we are placed in 3 cities in Switzerland - Zurich, Zug and Horgen. We consider ourselves to

be more than a modern cosmetic clinic, as we want to offer our clients a center of excellence in the fields of cosmetic treatments and aesthetic surgery.

Our experts are specialists in their respective fields and offer you a superior range of cosmetic and medical therapies as well as innovative aesthetic surgery procedures that are suitable for both female and male clients.

As any other classic cosmetic clinic, we put your wishes and ideas to the forefront. Perfection, responsibility and time for our clients are the guiding principles of our center. The goal is, to satisfy our patients and strengthen their well-being and self-esteem.

Eyelid surgery, breast enlargement, liposuction, nose surgery and many other surgeries - rest assured and trust yourself to our care. For this, one of the most modern surgery places was built in 2009 in the historic Utoschloss at the lake of Zurich to guarantee the best medical evidence. The staff addressed the needs of each client working to facilitate the process and guide the client step by step through each stage of surgery.

Dr. Köhler understands that making the decision to have cosmetic surgery, is a deeply personal choice.

EXPERIENCE

Dr. Christian Köhler is a aesthetic surgeon and the head of the center. He is committed to providing his clients with the highest quality surgical care that is performed with your safety, comfort and privacy in mind.

He was trained in the "art of plastic surgery" by the renowned surgeon Dr. Ernesto Di Geronimo in Miami/ USA with an experience of 35 years in the field of plastic surgery. Dr. DiGeronimo has perfected his skills by performing thousands of cosmetic operations. Having much „hands-on“ training in Miami, Dr. Köhler understands the „difference“ between the american and european way of plastic surgery, which is why he is the first and only doctor in Switzerland, to use the revolutionary US Cellulaze® laser System for Cellulite treatments.

Dr. Köhler understands that making the decision to have cosmetic surgery, is a deeply personal choice. From the initial consultation, Dr. Köhler takes the time to form a bond with each client that transcends the usual doctor patient relationship. He discusses each patient's goals and expectations openly and honestly. It is not unusual for him to discourage a particular operation, if he feels that it will not achieve the desired results for the patient.

Significantly improved surgical techniques along with advancements in anesthesiology (designed by Hypnocare®), have resulted in increased comfort and accelerated recovery periods. In-office procedures are safe and affordable. From the moment you enter our tastefully appointed reception area, you will become increasingly aware of just how far cosmetic surgery has come. You could not be in better hands.

It will be our pleasure to inform you about all the procedures we have included in a wide range of services that make us a leading provider of cosmetic treatments and, primarily, a center of excellence for medicine and aesthetics. We will be happy to answer any personal questions or requests that you may have.

Apart from providing information material about our services, our website will also help you, to know detailed information about our proposals and experts.

We would be delighted to have the pleasure of welcoming you at our clinic for a free consultation. We can also assist, should you have any questions regarding financing your individual wishes. ■
