Noninvasive body contouring
with the speed of light

SculpSure™

The new shape of energy-based body contouring

SculpSure™ offers convenient, comfortable contouring for any body and skin type. It’s a noninvasive, light-based energy device that treats stubborn fat in just 25 minutes.

Maximal performance in just 25 minutes
• Flexibility with 4 individual non-suction applicators
• Treat more than 1 area during a 25-minute session
• Simple, hands-free treatment
• Lower cost of ownership for your practice

VERSATILITY
The flexible applicator system treats areas up to 96 cm² and sculpts trouble spots with each 24 cm² applicator.

CONTROL
The 4 individual flat, non-suction applicators and unique placement and suction system let you customize the treatment with each patient's problem areas.

25min TREATMENT

Bring the science of light to the art of body contouring

SculpSure™ is the first FDA-cleared laser treatment for noninvasive lipolysis of the flanks and abdomen. It's a state-of-the-art, controlled energy-based technology, ideal for patients looking to get rid of stubborn fat in less time.

- Flat, non-suction applicator design for consistent results
- Simple and efficient attachment system
- 4 hands-free applicators
- Treat multiple areas within 25 minutes

Innovative technology to sculpt and define

The 1060 nm wavelength’s specific affinity for adipose tissue, coupled with minimal absorption in the dermis, allows SculpSure™ to efficiently treat areas of troublesome fat in just 25 minutes. Over time, the body naturally eliminates the disrupted fat cells with results seen as quickly as 6 weeks and optimal results usually seen in as few as 12 weeks.

Controlled hyperthermic laser treatment

- Disrupted adipose tissue temperature elevated between 42°C and 47°C
- No damage to surrounding tissue
- Contact cooling for patient comfort
- Proprietary energy modulation for efficacy

Defining success

25% reduction in stubborn fat

- Clinically tested in multisite trials with more than 100 patients
- Over 90% patient satisfaction rate
- Comfortable and well-tolerated treatment
- Can be used in skin types I-VI

Light up your business

Capitalize on the growing demand for energy-based devices like SculpSure™.
